TERMITE & FUMIGATION, INC.

7401 N.W. 7th Street, Unit 7 • Miami, Florida 33126 • Tel: (305) 266-2220 • Fax: (305) 266-0113

**TIME OF FUMIGATIONS:** You will be pre-notified of the time of your fumigation the business day before the date of your fumigation. If you have not been pre-notified, please call our office at your earliest convenience. It is very important that someone be present with keys at the time of fumigation.

**CUSTOMER DUTIES:** The following procedures are required for the safety of you, your family and your property. We disclaim any responsibility for damages or claims due to your failure to follow these procedures.

## HOMEOWNER'S PREPARATION FOR TENT FUMIGATION

- 1. All persons must leave the structure and all living things, such as animals, pets (including aquariums and living plants), must be removed from structure before fumigant may be released.**
- 2. Remove from structure or double bag in (NYLON FUME BAGS, provided by Darn Quick Termite & Fumigation only). All items for human consumption (such as foods, beverages, drugs, and medicines). Items packed in plastic bags or boxes (even if sealed). All food inside of refrigerators and freezers, all wine bottles and liquor and also all tobacco products, which are not in airtight containers (such as sealed glass or metal). Any food items left in structure must be disposed by a Darn Quick Termite & Fumigation representative, if the customer is not present to remove them, prior to releasing fumigant. Darn Quick Termite & Fumigation will not be responsible for any foods having to be disposed off.**
- 3. The law requires that the fumigator should have in his possession all key(s) necessary to gain the immediate entrance thru all doors during the entire time that the structure is under fumigation, including keys to sheds, utility rooms, gates, efficiencies and apartments.**
- 4. The law requires that all structures be locked during a fumigation, and secondary locks will be placed on every outside door to prevent access into structure, until it is cleared for re-entry by our fumigator. NO ONE IS ALLOWED TO ENTER UNTIL THE STRUCTURE HAS BEEN DECLARED SAFE FOR REOCUPANCY.**
- 5. The main entrance of the gas line must be off, before the fumigation. You are responsible to turn it off and on, or make arrangements with the gas company to do it for you.**
- 6. Electricity must be available, as it will be required to run fans during the fumigation period.**
- 7. All air conditioning and heating units must be turned off, all flames such as pilots light and glowing heating units must be extinguish to avoid corrosion.**
- 8. Remove all plastic/vinyl covers from pillows and mattresses. Baby crib and sickroom mattresses must be removed.**
- 9. Cut back shrubs and tree branches adjacent to the structure to prevent damage to them. Thoroughly water the ground around shrubs and plants. Rocks, gravel, mulch or wood chips must be raked 12-18 inches away from the structure to ensure a proper ground seal.**
- 10. Automobiles, boats, vehicles of any kind, patio furniture and patio ornaments must be placed, by owner, at least 30 feet away from the structure being tented to prevent any potential damage due to tenting equipment falling from roof. Darn Quick Termite & Fumigation, will not be held responsible for damage, if these items have not been removed.**
- 11. Shut off automatic switch controls for appliances and lighting systems, which will be included in the space to be fumigated.**
- 12. All operable windows, cabinets, drawers, closets and interior doors must be opened a minimum of four inches, raise blinds, open drapes and attic vents.**
- 13. When masking tape must be used for sealing purposes, the company cannot be responsible for paint or plaster lifting off when tape is removed.**
- 14. All obstructive articles, such as antenna guide wires or weather vanes, must be removed. The company cannot be responsible for changes in TV reception after the fumigation is completed. Houses with pool screens or enclosed screen roof patios, must remove screens before fumigation.**
- 15. Hanging frames, mirrors, decorations of any kind, etc. that aren't properly secure, must be removed. The company will not be responsible for any damages caused by fans placed in home during the ventilation process.**
- 16. Due to the type of work involved it is necessary to work on roof area. This company will not be responsible for any damage to roof, cracked or broken tiles, gutters, solar heaters, sprinklers, drive-ways, exterior light fixtures or signs, roof skylights, commercial signs & wooden fences that can be damaged by any reason, including act of nature.**
- 17. Notify the company prior to the fumigation of any conduits, tunnels, pathways, etc., connecting the building to be fumigated or to any other structure.**
- 18. During the fumigation and aeration procedure, the company will not be held responsible for vandalism, theft or breaking and entering. Customer has been warned and watchman recommended.**
- 19. In the case of adverse weather conditions, (wind, rain, storm) the job may need to be rescheduled.**
- 20. Power Lines, Telephone Lines, T.V. Cable Lines, should be in good condition. In case of some interruption you may need to contact the company (FPL, Bellsouth, AT&T, Cable Comp., etc). We are not responsible for anything that may occur due to this.**
- 21. At time of fumigation everything live inside the structure will die. It's common to see ants and other insects after tenting. Remember your guarantee is only for termites. Live termites can be found days after fumigation, this is called delayed killing.**
- 22. Drywood termite evidence such as tunnels, droppings will not disappear and it's normal to see them after fumigation is performed.**

*I, hereby acknowledge that I have read and understood the above preparations*
